Re: Missing mailbox lock, Apt. 110, Central Park Tower, 1511 Farnam Street, Omaha, NE 68102

Dear Postmaster General Steiner:

I am a resident of Central Park Tower, 1511 Farnam Street, Apartment 110, Omaha, Nebraska 68102. My mailbox lock is missing. The compartment cannot be secured. Mail left there is open to anyone in the building.

In writing in early August 2026 I asked the building office for a lock and key. The office has not replaced the lock. The letter carrier told me the lock is the office's responsibility. As of October 1, 2026, the lock was still missing. I met the carrier that day and took my mail in person, including a voting ballot. I should not have to intercept the carrier to keep a ballot out of an open box.

Please have the Omaha post office determine who owns this receptacle and who must install the compartment lock. If it is a Postal Service lock, please install a lock and issue me a key. If it is the property owner's lock, please direct the owner, CPT Burt Apartments 23 LLC, to install one at once, and withhold delivery to that compartment until it can be locked. Please also confirm that a ballot will not again be left in an unsecured box.

I can be reached at (402) 889-9047.

Respectfully,

Steven J. Donahue
